

"FJ" CLOTH CONTOUR FINISHING

DETROIT INDUSTRIES
MANUFACTURE D'ABRASIFS FLEXIBLES

PRODUCTS

Main characteristics

KPR ALOX BH Cloth

Thanks to a special chemical cooling agent, this product gives exceptional results.

Rejects due to discoloration at the contact point when over heating become minimum.

This is an exceptional product made for the most demanding jobs.

The flexible cloth fits contour finishing.

Applications

Sanding and finishing on stainless steel and different alloys.

Finishing on surfaces needing to stay cool.

Efficient on every kind of machine.

Center less sanding.
