

FIBER DISCS

DETROIT INDUSTRIES
MANUFACTURE D'ABRASIFS FLEXIBLES

PRODUCTS

Main characteristics

VFB41 Vulcanized Fiber ALOX SF

Using the best available fiber on the market this product is exceptionally performing on car body work and all metal and hard wood work.

VFS61 Vulcanized Fiber Silicon Carbide

Particularly recommended for use on marble and stone.

ZFB61 Vulcanized Fiber Zircon

Exceptional performance on stainless steel and non ferrous alloys.

General characteristics

	VFB41	VFS61	ZFB61
Base	Vulcanized Fiber	Vulcanized Fiber	Vulcanized Fiber
Bonding agent	Resin / Resin	Resin / Resin	Resin / Resin
Abrasive	ALOX	Silicon Carbide	Zircon
Structure	Closed	Semi Open	Closed
Available grits	P. 180 – P. 16	P. 320 - 36	P. 120 – P. 24
Shapes	Discs	Discs	Discs

Applications

General pressure sanding on all materials.

Highly resistant on marble and stone.

Finishing on stainless steel and aluminum.

To be used on portable sander.
