

"LUBRICUT" STEARAT FINISHING PAPER

DETROIT INDUSTRIES
MANUFACTURE D'ABRASIFS FLEXIBLES

PRODUCTS

Main characteristics

AHR "C" wght Special ALOX Paper

AHR is a very flexible finishing paper for use by hand or with orbital sander. Its open structure allows very aggressive sanding with minimum loading.

SCR "C" wght Silicon Carbide Paper

SCR has a very flexible base paper, combined with a special coating. A patented lubricating system allows a smooth sanding.

CCS "A" wght Silicon Carbide Paper

CCS is an extremely flexible abrasive paper particularly suited for hand sanding on curved surface.
