

# WATERPROOF LATEX PAPER

**DETROIT INDUSTRIES**  
MANUFACTURE D'ABRASIFS FLEXIBLES

## PRODUCTS

### Main characteristics

#### **AWB ALOX Waterproof Paper**

This is a latex coated paper that can be used wet or dry. It is a polyvalent product with a cost efficient ratio.

#### **AWR ALOX SF Waterproof Paper**

Colored red, a special coating makes this paper very resistant. It is particularly recommended for sanding hard wood.

#### **BWS Silicon Carbide Waterproof Paper**

A superior quality latex paper makes it extra flexible. It is recommended for high quality sanding in the fine grits.

*All three products are waterproof and long lasting.*
